Additional Feedback

1. What would you like to see us do differently?

Would like to see more slide shows

I believe it is clear that CDCCC support of vaccinations shows they have not assessed the actual data

Maybe have training at the meeting

Phone tree, more non-active members, yes, I would help

Give s a little more notice of meetings so we can put them on our calendars (like back of this agenda)

Nothing/maybe get new members or "potential members" here (a must)

Critically think thru whether or not vaccinations of the swine flu are in the best interest of our general population

No idea - I'm still new

Look at involving youth, sixteen and above, but maybe having a means to involve youth 12 through 15

2. What additional training would you like to see us offer?

ACLS & PALS, IV Skills

Shelter, Kitchens (portable) and continued ongoing field training

Landing Zone, anything else appropriate

CERT monthly refreshers

CPR, First Aid, MYN as a group

CPR, other First Aid

CERT programs with 7th & 8th graders for elective credit & to teach & practice impulse control & rational thinking

No idea

More generator classes and have added classes to build on the basics taught in CERT like First Aid, cribbing, etc.

Maybe be more available to the public somehow

Refresher courses

3. How many emails per month are you comfortable receiving from the CDCCC?

3

Whatever it takes

Lots

I appreciate knowing about training activities

4-5

10 to 12

2

No limit

4 for normal days, more during emergency periods

5

10

You guys are great!

Apply for grants that promote the empowerment of individual agency to make decisions about what is best for their individual family then teach the protocols in response that are most efficacious for our rural residents

No - thanks for the org. Well done meeting

Loved the explanations in the presentations

At the beginning of the meeting, I would have had all people introduce themselves

Monthly meetings with a portion of th meeting for training
